

Dear Parents,

Beginning in November, we will be highlighting one student each week as the "Star of the Week". Each student will have a turn to be the special person in our classroom.

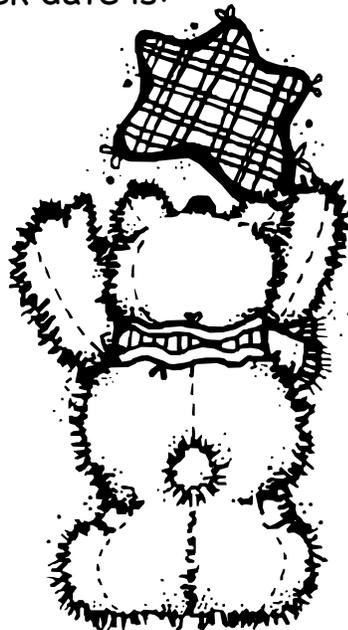

This is a time when the class has the opportunity to get to know your child much better. We particularly hope to find out more about your child's specific interests, talents, background and other unique qualities. To aid us in finding out these facts, a special bulletin board has been set aside for your child to create a "self-display". Could you please help your child gather items to put on the attached "Star of the Week" mini-posters. If actual objects are not available, or cannot be hung on a bulletin board, a written description, drawing or photograph of the item is also appropriate. Along with the items for the bulletin board, your child may bring in **ONE** item that is special to them to share with the class. You may want to go over these items with your child before he/she brings them in, to help them present them to the class. Thank you for your help!

Please place the mini-posters and **ONE** special object into a bag or box marked with your child's name and class number. Also, remember that we would like ALL of the items your child brings in to be displayed, so please limit his/her choice to what will fit on the mini-posters. Send them to school on your assigned date (see below). We would also love to have someone special to your child come in and read a story to the class during your child's special week. Please let me know what day would be good so we can schedule a time. Thanks again for all your help!

\*\* Please feel free to stop by and see the final display.
