

We are so excited that teachers and students will once again be on campus together! But in order to keep schools open and hopefully bring back more students, we must each acknowledge the responsibility we have to one another and to our community. This pledge encapsulates the commitment we must make to one another to keep our community health and safe, so we can ALL be back together on campus. Please read, discuss, commit to, and sign this Riptides Pledge.

My family and I will minimize travel and large group activities over the holidays and during vacations for the school year. We will observe applicable self-quarantining guidelines for travel and exposure.

My family and I will complete self-screening and symptoms check using the designated technology platform every morning prior to school. We will show our approved status prior to entering school.

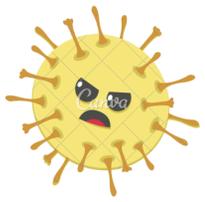

My family and I will err on the side of caution and will stay home when experiencing any signs of illness including: fever, coughing, new loss of taste or smell, and/or shortness of breath.

My family and I will wear masks on school campus at all times as directed. I will follow my school's rules about if and when it is permissible to remove my face covering temporarily during the school day.

My family and I will inform the school if someone in our household is symptomatic or has had exposure to someone who has tested positive for COVID-19.

My family and I will practice social distancing when on campus, including following directional signage about where to walk, stand or sit.

My family and I will practice healthy habits, including frequent handwashing, covering coughs and sneezes, and proper use and cleaning of our masks, including daily washing in hot water.

My family will help me remember to keep my belongings separate from others' belongings when at school and in the classroom.
